PROFESSIONAL SUMMARY

Performance-driven Computer Science undergraduate specializing in Java Full Stack Development, Spring Boot backend services, and RESTful API architecture. Experienced in engineering scalable relational schemas, modular micro-architectures, and high-performance algorithms with 400+ DSA problems solved across LeetCode and GeeksforGeeks. Seeking an entry-level Software Development Engineer (SDE) role.

EDUCATION

Rajasthan College of Engineering for Women (RCEW), Jaipur — 2023 – 2027
B.Tech in Computer Science & Engineering — **Current CGPA: 8.59 / 10**

TECHNICAL SKILLS

Languages & Core: Java (8+), SQL (MySQL), JavaScript (ES6+), OOPs, Data Structures & Algorithms, DBMS, OS
Frameworks & Web: Spring Boot, Spring Data JPA, Hibernate, Thymeleaf, REST APIs, HTML5, CSS3, Maven
Developer Tools: Git, GitHub, Postman, MySQL Workbench, Eclipse, IntelliJ IDEA, JWT
Architectures: MVC Architecture, Microservices Concepts, Responsive UI/UX Design, Agile Methodologies

WORK EXPERIENCE

Euonus IT Pvt. Ltd. | *Java Full Stack Intern* — Jul. 2025 – Aug. 2025

- Developed production-grade backend services with Java and optimized MySQL schemas, improving query execution efficiency by 20%.
- Engineered modular REST APIs and integrated responsive front-end components, lowering cross-device rendering latency.
- Collaborated in an intensive 45-day Agile sprint adhering to enterprise clean coding standards, debugging, and Git workflows.

PROJECTS

URL Shortener & Analytics Engine | *Java 8, Spring Boot, MySQL, Spring Data JPA, JWT* — GitHub Code

- Implemented a secure RESTful backend using Controller-Service-Repository architecture with stateless JWT authentication.
- Engineered a 6-character short-code generator with indexed database lookups, executing HTTP 302 redirects under 50ms.
- Built real-time analytics aggregation capturing click timestamps, geographic headers, and referrer logs per shortened link.

SkillSwap: Peer-to-Peer Web Application | *Spring Boot, MySQL, Thymeleaf, CSS* — GitHub Code

- Developed a full-stack P2P skill-sharing platform featuring secure onboarding, authentication, and dynamic profile matching.
- Architected relational schemas supporting role-based access controls, user ratings, and transactional interactions.
- Engineered a secure, low-latency messaging framework allowing instant, real-time user-to-user communication.

Vision-Based Multimodal Gesture Control | *Python, OpenCV, MediaPipe, PyAutoGUI* — GitHub Code

- Built an AI-powered touchless controller using MediaPipe and OpenCV for real-time, multi-point optical hand tracking.
- Translated physical gestures into system-level macro commands via PyAutoGUI, reducing input latency by 35%.

CAMPUS LEADERSHIP & ACHIEVEMENTS

- **TPO Coordinator:** Coordinated placement drives for 200+ students and managed communications with corporate recruiters.
- **Technical Coordinator:** Organized technical events, institutional hackathons, and coding workshops for engineering batches.
- **Competitive Programming:** Solved 400+ DSA problems on LeetCode and GeeksforGeeks covering core algorithmic patterns.

CERTIFICATIONS & TRAINING

- **AI-ML Certification:** Microsoft & Edunet Foundation – Predictive modeling and artificial intelligence foundations.
- **Software Engineering Job Simulation:** JPMorgan Chase & Co. (via Forage) – Industry-standard engineering tasks.
- **Employability Skill Training:** Mahindra Pride & Naandi Foundation (2025) – Workplace communication and professional etiquette.
